7" TABLET PC

Features/Advantages:

- Our new 7" Tablet PC series offers a superlative experience with the thinnest and lightest large screen tablet available! Enjoy unmatched mobility thanks to the amazingly thin and light body. At just 400-500 grams and 9-12mm slim, this tablet is a breeze to handle.
- High definition 7" display delivers excellent screen sharpness. With 800 x 480 - 1024 x 600 display boasting a pixel density of 149-169 ppi (pixel per inch), you can enjoy better details. Movies, photos and programs with rich graphics will pop to life on the tablet's screen.
- Browse without limitations! Thousands of top websites use rich Flash applications, so whether you're browsing the web or viewing online multimedia content, you'll be able to see it all with our 7" Tablet PC and Adobe® Flash® player support.
- With both 3G and WiFi access, you can be connected 24/7 wherever you are. Enjoy fast and stable connections to the internet for speedy browsing, downloads and more! Enjoy the best of the web from your tablet.
- Enjoy having both front and rear-facing cameras built in on the tablet. Whether you need to video chat with a friend or a client, front camera offers great clarity. The rear camera allows you to capture the greatest photos and HD video right from your tablet..
- The right add-ons, such as Keyboard case or desktop dock, can help you get more out of the tablet experience. Whether it's using the tablet in more convenient ways or connecting to devices that expand the way the tablet can be used, these accessories will enhance the way you interact with your tablet.
- Do more with Google! Familiar applications including Google Talk video chat, Gmail, Google Calendar, Youtube, Google Maps, Google Latitude, Google Places, and Google Maps Navigation(Beta) work seamlessly on 7" Tablet PC.
